- Problem-solving, communication, teamwork
- Attention to detail, proactive, time management
- Ability to work well under pressure.

Language

Language:
- English: Good working knowledge

PHAM TRAN MINH THU

Manual Tester

Profile

I am a sociable, dynamic person with strong adaptability. I am always proactive in learning and supporting my teammates. With patience, attention to detail, and a strong desire for self-improvement, I am ready to take on challenges to enhance my professional skills and contribute positively to product quality assurance.

Work Experience

QC / Manual Teste, W2_Solution   03/2025 – 07/2025
- Read and analyze the requirement documents, then write an analysis to clarify the requirements.
- Write Test Cases based on the Test Pattern.
- Perform testing, record results, and update the Bug List.
- Wrote Q&A documents to clarify unclear or missing requirements directly with developers and BAs.
- Write SQL queries to retrieve and verify data during testing.
- Use Excel and internal tools to manage test cases, bugs, and track progress reports.
- Run test according to the Test Case.
- Participated in monthly team reviews to identify problems, analyze root causes, and propose solutions to improve product quality and teamwork efficiency.

QC / Manual Tester, W2_Solution   01/2025 – 03/2025
- Research the company's business processes.
- Training on writing test cases based on test patterns, and creating bug lists.
- Getting familiar with reading requirements and writing Q&A to communicate with developers.

Project

Project: **Testing-Shopee**
Description: Testcase to check login function, product search, and add product to cart.
Testcase: testing

Goal

Short-term goal:

Leverage the experience I have gained to contribute to ensuring product quality. Based on this, I aim to further enhance my skills in API testing and other advanced testing techniques.

Long-term goal:

Within the next 1-2 years, obtain the ISTQB Foundation certification, develop into a professional Junior Tester, and become proficient in automated testing tools such as Selenium to build a solid foundation for Automation Testing.
